

Millennium

Millennium

Millennium

The Millennium pool will add classic beauty to any backyard. It's exclusive Tuscan wall pattern reflects timeless style and taste.

- The column uprights and two piece resin caps compliment the classical decor and provide integral support to the large 7" top ledge.
- The Millennium pool is manufactured from hot dipped galvanised steel for unparalleled strength and durability.
- The wall and frame are coated with a three process paint system to provide protection from the elements. A clear liquid vinyl top coat assures the the Millennium pool will last for many years.
- Attention to product quality continues with oversized connectors, coated top and bottom tracks and a simplified hardware system for ease of installation and a secure fit.
- The Millennium oval pool is available with a traditonal buttress system or a new space saving buttress system.

Heavy-duty buttress system

Ledge, cap and post designed for a secure fit
